

G3:- The movements like the ones mentioned have consistently failed to bring the youth into environmental awareness movements. What is your plan for that?

G4:- You said that people in society in generally pay a huge importance to the things said by IITians. But the numbers say that IITians though having such a good number, haven't been involved in any of famous movement started in order to protect environment? Can you comment upon that.

G7:-

G8:

G9: You've mentioned judicious use of plastics.....how would you train the youth to follow such practices?

G10: You've mentioned conducting rallies for spreading awareness over urban sustainability, amongst the youth. How can such rallies be conducted?

G11:

G12: Reduction of emissions, as mentioned by you, is one of the ways by which we can reduce environmental degradation. Can you suggest a way to spread awareness about this, amongst the youth?

G13:
